

# KT 4000

Loader with Bucket

MADE IN  
ITALY

**Complete of  
bucket for  
upload and download**

## Loader for tractor

The KT-4000 series rear loader, thanks to its design, can also work in smaller places. With its angle of grab and dump of the bucket, this model, which can work easily even in spaces narrower ones, it can easily lift loads up to 600 kg. This model is made with reinforcements on all four sides to avoid the break. Minimum required tractor power: 45HP
